ISBN : #1847972586 | Date : 2011-06-17

Description :

PDF-53866 | Many people aspire to one day build a house for themselves but for one reason or another they have never taken the plunge. This book explains how to go about building a home that will save you money, save energy, minimize carbon emissions and greenhouse gas production—the main causes of climate change—and above all, provide a home of exceptional thermal comfort, not too hot, not too cold, in f... *Building Your Own Sustainable and Energy Efficient House*
